Terms of Service

This Terms of Service describes how and when FullSenders LLC. ("sendit") collects, uses, and shares your information when you use our Services.

1. Information Collection and Use

Creating an Account and Profile Information

If you create an account, you will provide us with certain information that can be used to identify you, such as your name and phone number ("Personally Identifiable Information" or "PII"). We may also collect non-identifying demographic information (such as your gender or date of birth), zip code, school, and other information that is not considered PII because it cannot be used by itself to identify you.

Contacts

On sendit, we only want you to be added (followed) by people know. So we use phone numbers for finding your friends. To do this, you give us authorization to access and store your contacts information from your address book on your mobile device ("Contacts"). We will use your Contacts in order to identify other Users that you may know and to provide you with suggestions for other Users with whom you may want to connect.

Additionally, if you invite a Contact to the service by sending a message to an unregistered contact, the selected contact will receive an alert via SMS text message. This will not include your name, but sometimes your gender and school, along with a link to the app. You agree that the Contacts who you message on sendit are eligible to sign up for sendit. If you do not want us to have access to your Contacts after signing up, you may disable this feature and it will not impact your service. However, it is necessary during the initial registration process.

Use of Your Information

Our primary goals in collecting information are to provide and improve our Services, to administer your use of the Services (including your account, if you are a User), and to enable you to enjoy and easily navigate our Services. In addition, we may use your information to send you information about our Services, respond to your requests and facilitate your use of the Services. We may also use your information to send you text messages that directly promote our Services. However, we will aim to minimize any direct contact.

Location Information

In addition to profile information, we may access your location by converting your IP address into a rough geolocation. We only use this information to display schools nearby to join. Joining your school allows you to find friends more easily and show your school network.

Cookies

We use “Cookie” technology to collect additional information, including usage data to provide and improve our Services. A Cookie is a small data file that is placed on your computer’s hard disk when you access our Services. sendit may use both session Cookies and persistent Cookies to identify that you’ve logged in to the Services, to better understand how you interact with our Services, to monitor aggregate usage and web traffic routing on our Services and to customize and improve our Services. Unlike persistent cookies, session Cookies are deleted when you log off from the Services. Most Internet browsers automatically accept Cookies. If you do not want cookies from sendit or other services, you can change your settings to stop accepting Cookies or to prompt you before accepting a cookie from the services you visit. However, some Services may not function properly if you disable Cookies.

Web Beacons

“Web Beacons” (also known as web bugs, pixel tags or clear GIFs) are tiny graphics with a unique identifier that may be included on our Services for several purposes, including to deliver or communicate with Cookies, to track and measure the performance of our Services, to monitor how many visitors view our Services, and to monitor the effectiveness of our advertising. Unlike Cookies, which are stored on the

user's hard drive, Web Beacons are typically embedded invisibly on web pages (or in an e-mail).

Log Data

Our servers automatically record information ("Log Data") created by your use of the Services. Log Data may include information such as your IP address, browser type, operating system, location, your mobile carrier, device and application IDs, the Users with whom you message, access date and time spent on features of the Services and other statistics and Cookie information. We receive Log Data when you interact with our Services, for example, when you visit our websites, sign into our Services, or interact with our email notifications. sendit uses Log Data to provide our Services and to measure, customize, and improve them. For instance, sendit may provide you with recommendations based on your use of the Services.

Information Sent by Your Mobile Device

We collect certain information that your mobile device sends when you use our Services, like a device identifier, user settings and the operating system of your device, as well as information about your use of our Services.

2. Information Sharing and Disclosure

We will not share any PII that we have collected from you or that regards you except as described below:

We engage third-party service providers to perform functions and provide services to us in the United States and abroad. These third-party service providers only have access to your PII for the purpose of performing services on our behalf and are expressly obligated not to disclose or use your PII for any other purpose.

Information Shared with Third Parties

We may share aggregated information and non-identifying information with third parties for industry research and analysis, demographic profiling and other similar purposes.

To protect your information we recommend that you carefully review the privacy policies of all Third-party Services that you access.

5. International Transfer
